LinkedIn | GitHub | Portfolio

## Professional Summary:

Full Stack Developer / Software Developer / IT Analyst with 10 + years of hands-on experience in designing, developing, and implementing applications and solutions using a range of technologies and programming languages.  Seeking to leverage development experience and hands-on IT expertise in a challenging role as a Full-stack Developer.   Current career responsibilities include, but not limited to, rebuilding and maintaining entire front-end experience with a mobile-first responsive design including back-end development for communication and functionality.  Expanding sales opportunities by building custom platforms and management of version control operations via GIT.
